RECEIPT

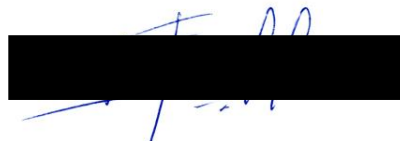

I confirm that I received from Luca Windolph, who is in charge of the operation of the Sol Nocturno CSA collective in Germany, the amount equivalent to 434.50 Euros that was available after the roasted coffee sales and that comes from the following topics:

1. Ocean freight, logistic and import: 1.42 Euros/Kg
2. Roasting labour: 3.12 Euros/Kg
3. Financing cost (July 2020 to January 2021): 1.38 Euros/Kg
4. Gross margin to Sol Nocturno farm: 2.77 Euros/Kg

The numbers 1 and 2 (importing and roasting) were savings thanks to the kindly contribution of Alfons and Matt. The equivalent of these amount in Mexican Pesos (4,585 MXN) went directly to the farm workers (Don Julio y David).

Thank you very much.

Sincerely,

Diego Porras
Responsible for Finca Sol Nocturno
